

Hi Felicia

I brought 3 of the 4 cans in. The tennis court can can be brought in with the net and chairs. I noticed the boat ramp was way out of place and the poles are missing. It looked like two of them in the water, so I tried using the magnet to fish them out but it didn't seem strong enough to pull them over the rocky bottom. The dock can be dragged in carefully with a truck and road.

Doug

Ps

Going to try and stop in tomorrow with keys and some notes and diagrams. Depends on what time we leave in the morning.
