

Security Report July

This summer has been a very busy summer for security. Lots of new faces and rules that our community has not used to being enforced. Please everyone attach the green WWLA pass on the back of your vehicle so security knows that you belong at the beach or tennis courts and dam areas. Please not the windshield or dashboard. Security is doing there job as best as they can if we follow the rules. We are not harassing anyone if we ask for a pass to show we belong. We have reports of outsiders coming in using our beaches. This helps put a stop to it and its working for beach goers and boaters trying to fish at our Lake that we all pay to maintain. Homeland Security is our only Pennsylvania State approved security working this community. They are licensed insured and bonded.
