

## Beach and Grounds Report

Submitted by: Doug Guercia

Boat dock was brought in.

The tennis court net will be brought in as weather changes. Reached back out to Don Werner at Craftco will try and meet up to look at what can be done with courts.

Will take one metal rowboat and bring to scrap yard and cut up old canoes and take to a dump. I looked at boats at the dam some appear to not be used at all for years but do have stickers. Maybe those can be stored at owners home to make room for ones that are used. I can get the numbers if that sounds like a good idea
