

## **May Security Report**

St Moritz security is back with 2 new officers to help support our Walker Lake community rules. Security will be enforcing all our posted rules on WWLA property. Please make sure all beach tags are used while at the lake that includes boating and fishing. WWLA decals are attached to boats, kayaks and vehicles. This is very important, this is for security purposes as we have had outside visitors use our Lake to fish, boat and swim free of charge.

Security has the authority to ticket vehicle's which do not have a WWLA decal attached to it on the rear while on WWLA property. This again is for your own safety for all who pay their fair share to enjoy our community. Visitors can get a pass from the office and should arrange before they arrive since is not always open.

Also remember to follow all PA Fish and Game rules while boating and fishing as they do enforce these rules with fines.
