

Homeland Security has a start date for April 1 with a soft opening of patrolling, extra patrols will go into full swing come end of May. They will provide signage for the community to let everyone know about patrols. Will be patrolling all beaches and dock areas and checking passes for cars, all guests and all home owners. All guest of home owners need to register there guest in advance and pick up passes for the boating and beach use for security purposes. Anyone fishing needs to have a pass to use our fishing areas, to many people are coming from outside of our community and using our lake and fishing areas. Fishing is not permitted in bathing areas or on the beach for insurance reasons. Nobody wants a hook in their foot. All boats and docks need to have an updated 2020 sticker that will be available at the club house for home owners who are up to date on dues.

We need to supply a current list of property owner for security reason to make sure who is up to date on dues and who belongs.  
Also list of sticker numbers for boats and cars .

Home land Security will provide weekly reports and all personal and vehicles will have body cameras to record events.

thanks
