

WLLA Road Committee Report
February 15, 2020

Snow Season Related

Winter Response - Empire State Excavating spread the roads at various times due to the several dustings, squalls and lake effect snows we have had since the last road committee report. No current issues to report with the winter response or the contractor.

Mild Winter – While we are having a mild winter as far as temperature and snow accumulations, all the small disturbances and light snow caused by lake effect that reach us cause us to spread salt and anti-skid materials. In a mild winter like this costs more because the spreading of deicing chemicals. Prior to each disturbance and/or light snow Michael discusses with Empire State if the roads should be spread or not. While we will error on the side of safety, there have been several times that we did no spreading at all based on the expected rising temperatures for the day. These decisions are based on years of experience dealing with and fighting snow and ice situations.

Winter Materials We received our second load of salt this season. The delivery was for 23.95 ton from Mid-Atlantic on January 31, 2019. We did not receive or order any anti-skid in the past month but we may have to again soon depending on the weather, Currently we have enough materials a couple of storm situations.

Snow Plow Contract – Reminder that the two year snow plow contract ends on April 15, 2020. We will solicit bids for new two year contract in May 2020. The Request for Proposal will be detailed on the level of service we currently are receiving from Empire.

Road work from 2018-2019 – A list of what road work has been done since July 2018 through December 2019 is attached to this report along with a list of tentative road work once the spring rolls around.

Road Work Completed Since July 2018

Date	Location	Type Repair
July 2018	Gravel Roads	Regrade surfaces
September 2018	Algonquin between Birch and Maple	Resurfaced
November 2018	Asphalt Roads	Filled potholes
April 2019	Onandaga between White Spruce & Lee	Pavement Repair
April 2019	White Spruce between Lake Shore and Onandaga	Pavement Repair
April 2019	Algonquin between Maple and Lake Shore	Pavement Repair
April 2019	Walker Lake between Birch and Pear	Pavement Repair
April 2019	Maple between Blackfoot and Piute (two locations)	Pavement Repair
June 2019	Asphalt Roads	Filled potholes
June 2019	Gravel Road	Regrade surfaces
July 2019	Along Asphalt Roads (done for snow removal purposes)	Trim back trees
September 2019	Delaware between Birch and woods toward Maple	Emergency repairs
September 2019	Asphalt Roads (new potholes due to rains)	Filled potholes
September 2019	Birch at Walker Lake Rd	Pavement Repair
December 2019	Neversink between Birch and woods towards Hinkel Est.	Emergency repairs

Tentative Work for 2020

Date	Location	Type Repair
April – May 2020	Seminole between Maple and White Spruce	Rebuild/Resurface
May – June 2020	Asphalt Roads	Repair Potholes
May – June	To be determined	Signage / safety
June – July 2020	Gravel Roads	Resurfaced

If any money is still available we will do more pavement repair on Maple and possibly Lake Shore. Also, we must rebid snow contract new year – unsure if how be an increase there will be if there is one.
