

**WLLA Road Committee Report
October 21, 2023**

One Actionable Item

Winter Operations

Winter Material

- Enough anti-skid on-hand
- Salt this year is \$124 per ton compared to \$123 per ton for last season.
- **Motion to order a truckload of ClearLane Salt at a cost of \$3,100 or less from Pava Salt & Stone**

Snow Contract

- The new contract started October 15, 2023. Will be keeping an eye on the weather and have Frenchmen move in equipment accordingly. With the weather still good some of that equipment is still in use on regular jobs.

Gravel Roads

- Nothing new to report

Asphalt Roads

- Warner Paving & Excavating to patch potholes and do other items included in the last quote and approved by board in email vote. We are in his work queue, and he is scheduled to start the week of October 23, 2023.

Road Budget 2024

- When Warner is up here doing the other job, he was asked if he would provide WLLA with a preliminary estimate (this would not be a hard quote) to pave a leveling course where needed and then resurface the entire length of Lake Shore and East Shore with 2" asphalt. Similar in nature to what we did on Seminole several years ago.

Signs

- Nothing new to report

Unimproved Roads Requests

- Nothing new to report

Trees

- Office has informed two different owners to cut back trees / brush off road. One was requested on Onandaga several weeks ago and was completed. The other was for trees hanging low over Mohawk and they were just notified on October 9, 2023.
