

Security Report June 2021

Updates on security, St Moritz is now working full Summer hours patrolling our community enforcing WWLA rules. Reminder to all members to have your beach access tags at all times to while using the lake for swimming boating and fishing. Remember this will help identify everybody who belongs at the lake and protect our community from people who do not belong. So please be happy to show you belong if security asks for your pass, he is there to protect all of us not to harass. Also please update all stickers for your boats and vehicles to 2021. You do need these passes to park at WWLA property and if you have visitors, please visit the office for visitors passes.

Thanks

Steve DiMaio
