

## Lake Committee Report. Meeting November 3, 2025

### CREEL SURVEY

The committee will select the winners from the creel survey respondents for the gift certificate soon. We have 3

winners..

### BEACH TESTING

The committee will be discussing ways to address geese issue in 2026. This includes a USDA program that removes

geese.

### 2024 LAKE REPORTS

With regard to the Chinese Mystery Snails, the committee will prepare information on how to address them. This either

should be a separate message or in an upcoming newsletter. The snails could have come from another water body via a

watercraft. There should be increased education on cleaning your watercraft if they have been in another waterbody

and also preventing outside non member watercraft from being on Walker Lake.

### FISH HABITATS

We are proposing to install fish habitat structures in 2026 instead of stocking the lake.

In order to continue to keep Walker Lake healthy, we remind all residents to keep pets off of the beaches and to have their septic systems pumped and inspected regularly.
