

Communications Committee Report - meeting held on May 25, 2022

- The next newsletter will come out in June. We have no new advertisers for the newsletter and would like a community volunteer to assist with this task.
- Our focus continues to be how to engage the community and encourage volunteering. We want to the community to be able to view volunteering as a positive experience for everyone.
- We are reviewing the 2018 interest survey with the possibility of sending out another survey for comparison as to how interests have changed.
- We would like to reach out to other communities (Twin Lakes) to determine their successes/failures with community engagement.
- We would like to recruit at least one other person to join the Communications Committee to assist in marketing our events.
- We are also interested in hearing from younger community members as how best to communicate and engage fresh faces.
