

Beach & Grounds

June Committee Report

The Docks and swimming ropes were put out – we had a great group of volunteers w/ coordination of Ralph Collozio and Doug Guercia – and the use of Brians Bartsch or Mark Gantners Pontoon...everything was a go – they also have the safety throw tube/device hanging on the tree.

Mr. Bill Mays is still taking care of the garbage – at both beaches – and the tennis court

The dock at the boat launch – needs to be weighted down / secured a bit better – I believe they were going to look into putting extra blocks under it to weigh it down –

The sand was delivered at Westshore Beach - and spread – again by a great group of volunteers –

I did notice that the rake / shovel and bucket were not at Clubhouse Beach – for the INDEPENDENT CLEANING of the beach – assuming they are not at Westshore Beach either – I will need to look into locating them – or getting new.....
