

Security Report July 2021

Security wants to remind all WWLA members and visitors to WWLA property need to have their green 2021 access pass on the rear of the vehicle, not the rear-view mirror. Visitors of members can get a visitors pass from the office and put it in the windshield. Security will be enforcing this rule. Remember this access pass is to protect our members so we know who a paying member is. Security has also been enforcing our beach and boat rules and by now everyone who is a member should have all their boat stickers up to date along with their beach tags. Please no more excuses why we are not up to date. Our security guard have a book of all the excuses he has heard.

On a final note, if our security guard does ask to see a pass, please respect this person he is only doing his job. He is not here to be abused or yelled at.
