

## Beach and Grounds Report August 2023

### Beaches

5 yards of sand were delivered and spread at west shore beach at a cost of \$318. As for the ruts at west shore beach, since the fire have since been pushed down and grass has covered them. They are not as bad as they were in May. They don't appear to be a problem to people. Tree limbs are still in the parking spot. I did clear a lot of loose branches while waiting for sand delivery. I can go clear the rest and just toss it back into the wooded area. Who owns that area is not clear. Club house beach will need sand next season.

### Tennis courts

The court appears to be in pretty good shape and not to dirty.
