

August dam report submitted by Ed Zimmermann:

Quarterly inspection performed on 8/7/21. Sluice gate was exercised. Minor weed growth appears to have been sprayed. Ferns growing in rock at outlet pipe will need to be cut down in fall.

Fireworks debris in spillway. I picked up and disposed of.

I spoke with PADEP regarding Proof of Financial Responsibility. We are required to provide a bond for \$50,000 or enroll in the Private Dam Financial Assurance Program. This amount is subject to review and change every 10 years.

- Bond: \$50,000 permanently removed from our operating budget, including interest on a CD if that is what we used for bonding.

- PDFAP: \$1000 initial fee, 1% annual fee per year, \$500.
 - Provides for low interest loans once certain parameters are met.

For rehabilitation work, there is also The National Dam Rehabilitation Program, which has grant money available with a required 35% contribution from the dam owner.

AND FOR THE PURPOSE OF SECURING SAID OBLIGATION, the Permittee hereby deposits the following collateral, in cash, certificates of deposit, irrevocable letters of credit, or negotiable bonds of the United States, the Commonwealth of Pennsylvania, the Pennsylvania Turnpike Commission, the State|Public School Building Authority or any municipality within the Commonwealth.
