

Tennis court stairs:

received a proposal from Touch of Grey Carpentry for \$950.00 to replace stairs and take away debris.

Boat Dock:

Boat dock was placed in the water at the dam.

Beaches:

5 yards of sand was delivered (Invoice was sent to office from D&S. It should have been around \$190-\$200) and spread out at Westshore beach. Safety rings and ropes along with first aid kits were placed out at both beaches. Club House beach was raked out. It looks as if we should be ok with it as far as sand. Still have around 1 yard of sand down there. Both rafts were placed out. Thank you to Brian Reynolds and his dog and boat for the help. It went very well. We added two cinder blocks to the clubhouse raft anchor. Hopefully that will be enough to hold in place better. I'll keep an eye on it. Ropes will go out ASAP wind does play a factor.

Porta potties:

My understanding will be delivered between the 19th and the 21st. 2 At a cost of \$135 + tax each per month. Totaling 286.20. The spots are marked out in blueish spray paint. One behind the club house and other at West beach. Thank you, Felicia, for the numbers.

Gazebo:

While looking at the stairs with Dan we noticed the gazebo and will be doing a little sanding and some stain in the near future. Can't have a rundown gazebo and good-looking bocce court. Nice job by Valerie and the crew.

Doug Guercia beach and grounds.
