

Security Report April 2020

Homeland Security started April 1 2020 with a soft opening of patrolling 1 hour a day. They have been patrolling our roads and checking on our boat docks and beaches. Mike from Homeland Security gives me daily reports when he is on duty and when he goes off duty via text message. At this present time, he is just patrolling for 1 hour a day between 1:00 PM and 2:00 PM, So far his reports have been mostly people walking around and dog walkers in the community. Greeting our landowners and staying visible to show a presence.

Mike was patrolling on Monday this week when Allen Sher stopped him on the road. Allen when on to say how I heard you back patrolling and you were not going to harass me at the beach. I am going to bring my trailer down to Beach and make fires like I did before. That red book means nothing to me. Mike informed him of his duties as security and moved on.

On a more positive note I have received a few people thank me about security coming back into the community. One was an email to the office thanking us for all the hard work the board does, and also bringing back security. Another landowner walking by my house thanked me also for security coming back. Homeland will increase patrols come Memorial day.

Thanks

Steve DiMaio
