

CLUBHOUSE REPORT FOR APRIL 2023

I will be asking for bids to re-roof our Club House as we get into better weather. We now have maybe 2 or 3 small spots showing that have been in contact with rain.

Need some volunteers to Install 2 out swinging door on the main entrance and the kitchen area. Also need to install a Panic door device on the stairway door since it is already an outswing door.

The Kitchen stove needs a new electric stove top burner, I am hoping that it is not a special size.

I would like to get some volunteers to clean up around our Salt tent. and clean the area that has many small trees growing behind the salt storage area.

We may need to purchase some salt for the water purifier near the end of summer.

The sensor light located at the end of the ramp also needs some troubleshooting and repair.

The basement area needs to be cleaned and the files need to be organized so they can be stored in the Lab room or somewhere in the office area?
